

WORLD IT SHOW 2026

April. 22-24 | COEX, Seoul, Korea

www.worlditshow.co.kr

BEYOND TECH, CONNECTING OPPORTUNITIES

In a world reshaped by AI and hyper-connectivity, change is no longer something we anticipate — it happens in real time.

Generative AI, ultra-connected networks, edge computing, and low-power, high-performance hardware are constantly reshaping daily life and fueling the growth of a sustainable digital ecosystem.

Digital humans and AI agents are now capable of understanding emotion and reimagining user experiences, while smart mobility is redefining the structure of our cities.

Businesses are shifting from data-driven to insight-driven strategies — with success now depending on how accurately they can interpret and respond to user context.

What matters today is clear: more human-centered AI, smarter connections, and more sustainable systems.

Discover your next breakthrough at WORLD IT SHOW 2026 — the platform that enables transformation beyond technology.

2026

REVIEW WIS 2025

Leads the Next AI-Driven Ecosystem.

WIS 2025 brought together 450 companies from 17 countries, including Samsung, LG, SKT, and KT, presenting breakthrough innovations in AI, autonomous driving, smart homes, the metaverse, and robotics.

With the theme "AX Era: The Rise of Everyday AI," it positioned itself as a powerful business hub through conferences, tech showcases, and global networking.

In 2026, WIS evolves into a customized business platform—deepening AI-industry convergence and expanding the ecosystem that connects startups, enterprises, and investors.

WHY WORLD IT SHOW 2026?

Beyond Exhibition
Your Gateway to Korea and Global Markets.

➤ **AI Innovation at the Core**

Explore cutting-edge AI technologies across industries — from generative AI to intelligent mobility.
(Join 500+ exhibitors and connect with over 70,000 attendees.)

➤ **Connect with Korea's ICT Leaders**

Dedicated networking programs such as the Mingling Zone and curated 1:1 business meetings foster high-value industry connections. International exhibitors can explore future opportunities in technology partnerships, content collaboration, and strategic investment.

Over 800 business consultations are expected, with 50+ buyers and investors from 15 countries.

➤ **A Launchpad for Growth in Korea**

WIS supports international companies seeking market entry and long-term success in Korea. Gain exposure to top-tier Korean firms, investors, and government stakeholders. Build your brand in Asia's most dynamic ICT environment through organic networking and on-site engagement.

➤ **Insights into Market-Ready Innovation**

Although exclusive to domestic companies, WIS's New Product & Technology Showcase is a must-see session. It highlights Korea's most innovative solutions and offers a valuable reference for identifying market trends and potential local partners and beyond.

INSIGHTS CHANCE NETWORK

Where Innovation Meets Insight,
and Connections Spark Opportunity

WIS Global ICT Insight Conference

Date : April 22, 2026

Venue : Main Stage, COEX Hall C
